POWERFUL REAL-TIME ANALYTICS TO TRANSFORM YOUR BUSINESS

With terabytes of new data every day, most data warehouse systems take at least 24 hours to catch up. That means your reporting is always out-of-date from what's happening right now. Your business happens in real time, Inzata is the analytics platform designed to keep up.

Dashboards and reports tell you what happened, days, weeks, months ago. Inzata helps you focus on the now, and on what's next for your your business with speedy analytics, dynamic visualizations, and actionable intelligence.

Opportunity doesn't wait, neither should your data.
