

UNIFY | MODEL | ENRICH | AUTOMATE | VISUALIZE

# One Platform. All of Your Data.

*Ease the complexity of data analytics*

## COMBINE

Combine data from  
ANY source

## MODEL

The fastest way to  
model your data into  
descriptive business  
models

## VISUALIZE

Make it easy for  
everyone to work with  
data and drive better  
decisions.

## POWERFUL REAL-TIME ANALYTICS THAT TRANSFORM YOUR BUSINESS

✓ Create stunning & effective dashboards & reports

✓ Gather, clean & blend data automatically

✓ Ask & answer complex questions about your data in seconds

# AN ENTIRELY NEW DATA TECHNOLOGY DESIGNED TO DELIVER REAL-TIME INSIGHTS

Bring in data from hundreds of sources, combine streaming and historical data to detect trends, relationships and hidden opportunities

delivers insights **1000x** faster than traditional data warehouses

## Old Technology

VS

## New Technology

### Spreadsheets Path

Repeated effort. Manual processes. Hours cleaning data to build reports

Too much time. Doesn't scale. Can't keep up!

### Traditional Data Warehouse Path

Data Warehouse Design

2-3 MONTHS

ETL Development

1-2 MONTHS

Old Way ( **5-8 Months** )

AI Optimized with 

Minutes Not Months.

Auto Generate Data Model & Mappings

Enrich Data (1-3 min/per Enrichment)

Start Building Dashboards!

New Way ( **2-3 Days** )

**1,000+**  
Connectors

**800+**  
Visualizations

## Inzata lets you:

Stream, analyze & act on your data in real-time

Combine historical data with real-time streaming metrics for the most accurate decisions & forecasting

Connect to hundreds of streaming sources

Quickly explore, understand & apply structure to data

Analyze & take action

Inzata simplifies big data for advanced analytics and real-time use cases that drive business innovation.
